

Giacomo Iadarola, Ph.D.

Software Engineer & AI-Cybersecurity Research Fellow

 gia.iadarola@gmail.com  [giacomo-iadarola](https://www.linkedin.com/in/giacomo-iadarola)  [Djack1010](https://github.com/Djack1010)
 giacomo-iadarola.duckdns.org  Scholar: Giacomo Iadarola

SHORT BIO

I am a **Software Engineer** with a Ph.D. in Computer Science, specializing in **scalable software systems**, **data analysis**, and **deep learning**. I have experience designing and building reliable, maintainable solutions that serve millions of users, with a particular interest in multidisciplinary projects that bring together diverse teams and domains. My background includes work in **Cybersecurity**, **Malware Analysis**, Formal Methods, and **Explainable AI**.

Currently, I serve as an **Elixir Back-end Developer** at Turn.io, where I build chat-based platforms and interactive no-code programming tools for health organizations, governments, NGOs, and mission-driven enterprises. These solutions enable organizations with a positive social impact to engage communities at scale through conversational experiences on messaging platforms.

Passionate about technology and its impact on society, I am dedicated to building software that improves people's lives and supports thriving communities.

EXPERIENCE

TURN.IO | PRODUCT ENGINEER - [HTTPS://WWW.TURN.IO/](https://www.turn.io/)
June 2023 – ongoing | Remote

- I build and maintain large-scale messaging and automation platforms, developing chat-based experiences, no-code programming tools, DSLs, and billing systems that reliably support millions of users and transactions.
- I leverage technologies including Phoenix LiveView, React, PostgreSQL, Elasticsearch, ClickHouse, BigQuery, Metabase, and Meta Business Platform APIs.

INSTITUTE OF INFORMATICS AND TELEMATICS - NATIONAL RESEARCH COUNCIL OF ITALY (CNR) | PH.D. STUDENT AND FULL STACK DEVELOPER -

[HTTPS://WWW.IIT.CNR.IT/](https://www.iit.cnr.it/)
January 2019 – January 2024 | Pisa, Italy

- Research on Malware Analysis, Software Analysis, Mobile security, Smart Contracts Security (Blockchain), e-Health security, and Explainable AI. Develop and test Deep Learning and Formal Methods models for addressing cybersecurity problems.
- Full-stack developer in European projects (C3ISP, Cybersecurity Observatory, CyberSURE, SPARTA, MEDINA).
- Student tutor and supervisor for Master's and Bachelor's thesis/traineeship at the University of Pisa and the University of Molise.

ONAM S.R.L | AI EXPERT AND DL MODEL DEVELOPER
February 2022 – January 2023 | Livorno, Italy

- Develop an AI module to process and classify images from patient to discover poor body posture, which leads to spinal dysfunction and rounded shoulders.

ITINERA S.R.L | CYBERSECURITY AND PROGRAMMING LANGUAGE TEACHER
May 2021 – October 2021 | Pisa, Italy

- Teacher of "Network Security" and the "Maintenance and Updating" module within the Java and Cybersecurity course funded by the Tuscany Region Institution.

PERSONAL INFO

LOCATED AT: ROME (RM), ITALY

BIRTH: FEBRUARY 1993

CITIZENSHIP: ITALIAN

SKILLS

PROGRAMMING

Proficient:

Python • Java • Bash • SQL •
LATEX • Elixir

Experienced:

C • PHP • Javascript • HTML

Familiar:

Rust • Ocaml

LIBRARIES/Frameworks

Git • Docker • Kubernetes •
Nginx • Apache2 • MySQL •
PostgreSQL • ClickHouse •
BigQuery • Spring Boot •
Tomcat • Hibernate •
RabbitMQ • Apache Drill •
Elasticsearch • Kibana •
Metabase • Phoenix
Framework • Phoenix LiveView
• Livebook • React • Tailwind
CSS • Elixir • Java • Python •
GitHub Actions • REST APIs •
Meta Business Platform APIs

PLATFORMS/OS

Mac OS • Windows OS •
Gnu/Linux OS (desktop/server)

LANGUAGES

ITALIAN

MOTHER TONGUE

ENGLISH

ADVANCE LEVEL (C1)

SOFT SKILLS

- **Communication (writing/speaking):** scientific publications and presentations, lessons in computer science courses, pitch project results/demos, handle meetings and client/investors presentations.
- **Teamwork, Organizational:** able to work as a part of a team, organize virtual meetings, open to criticism and manage conflicts.
- **Problem-solving, Stress and Time management:** critically adapt projects to changes, address problems and deal with deadlines.

PROJECTS

REPRESENTATION AND DETECTION OF MALWARE FAMILIES USING EXPLAINABLE APPROACHES | $\text{\LaTeX}$

PH.D. THESIS - [HTTPS://ETD.ADM.UNIPI.IT/THESES/AVAILABLE/ETD-02132023-170912/UNRESTRICTED/IADAROLA_PHDTHESIS.PDF](https://etd.adm.unipi.it/theses/available/ETD-02132023-170912/UNRESTRICTED/IADAROLA_PHDTHESIS.PDF)
Oct 2019 - Feb 2023

- Malware represented as graphs and images, and deep learning and model-checking techniques are tested to distinguish between malware families. The goal is to develop a malware detector that makes output predictions easily interpretable by humans.

TOOL FOR ANALYZING MALWARE REPRESENTED AS IMAGES (TAMI) | PYTHON

[HTTPS://GITHUB.COM/DJACK1010/TAMI](https://github.com/DJACK1010/TAMI)
May 2020 - January 2024

- It gathers the code, tools, approaches, and experiments presented in most of my publications.

E-CORRIDOR - EUROPEAN PROJECT | JAVA • PYTHON • JAVASCRIPT • HTML • DOCKER •

ELASTICSEARCH • KIBANA
[HTTPS://E-CORRIDOR.EU/](https://e-corridor.eu/)
January 2022 - January 2024

- I am the technical leader of Work Package 4, on behalf of the IIT-CNR. We develop web services and a web platform to analyze data coming from transportation sectors (automotive, railway and airports) and detect vulnerabilities and threats.

EDUCATION

UNIVERSITY OF PISA

DOCTORATE
Oct 2019 - Feb 2023 | Pisa, Italy
Computer Science

CARNEGIE MELLON UNIVERSITY

VISITING-PH.D. STUDENT
March - May 2022 | Pittsburgh (PA), USA
Cybersecurity

TECHNISCHE UNIVERSITÄT DARMSTADT

MASTER OF SCIENCE DEGREE
Oct 2017 - Oct 2018 | Darmstadt, Germany
Security and Privacy

UNIVERSITY OF TWENTE

MASTER OF SCIENCE DEGREE
Aug 2016 - Oct 2017 | Enschede, The Netherlands
Security and Privacy

UNIVERSITY OF PISA

BACHELOR DEGREE
Sept 2012 - Jul 2016 | Pisa, Italy
Computer Science

UNIVERSITY OF STIRLING

ERASMUS+ PROJECT
Aug 2014 - Jun 2015 | Stirling, Scotland
Computer Science

RESEARCH

- JOURNALS: 5+
- PAPERS: 25+
- BOOK CHAPTERS: 1
- CITATIONS: 500+
- H-INDEX: 13
- I10-INDEX: 17
- SCIENTIFIC PEER-REVIEWS: 50+
- TEACHING: 50+ HOURS
- CO-ADVISOR: 10+ THESIS

CYBERSURE – EUROPEAN PROJECT | JAVA • PYTHON • JAVASCRIPT • HTML

[HTTPS://CORDIS.EUROPA.EU/PROJECT/ID/734815](https://cordis.europa.eu/project/id/734815)

September 2019 - December 2021

- I contribute to the project as a main developer of the IIT-CNR web services, and for handling technical communications with partners.

CYBERSECURITY OBSERVATORY - WEBSITE | JAVA • PYTHON • JAVASCRIPT • HTML

[HTTPS://CYBERSECURITYOSSERVATORIO.IT](https://cybersecurityosservatorio.it)

April 2019 - February 2023

- I contribute to the website as a programmer (back-end developer), developing web services, handling collaborations, and presenting the website in public events to raise awareness on cybersecurity.

GRAPH-BASED CLASSIFICATION FOR DETECTING INSTANCES OF BUG PATTERNS | JAVA • BASH • L^AT_EX

MASTER THESIS - [HTTPS://GITHUB.COM/DJACK1010/GRAPPA](https://github.com/DJACK1010/GRAPPA) & [HTTPS://GITHUB.COM/DJACK1010/GRAPH4APK](https://github.com/DJACK1010/GRAPH4APK)

April 2018 - October 2018

- I developed a novel approach, and a tool (available on Github), to automatically detect bugs in source code without any prior-knowledge on the code itself.

EFFICIENCY IN TRAINING USERS FOR SAFER PASSWORDS | HTML • JAVASCRIPT

STUDENT RESEARCH

April 2017 - July 2017

- Research Question: “To what extent does a training on internet users affect their behavior in choosing safer and easy-to-remember passwords?”. The research was conducted via a website that we developed for this purpose. We wrote a short essay to report the result obtained

FUZZING NANOSVG AND SDB | PYTHON

TESTING PROJECT

April 2017

- Assignment for the course “Software Testing and Reverse Engineering” for TU Delft. We fuzzed some open source project to find bugs and patch them. We patched several bugs and got an excellent mark for our work.

“GHOST CODE”

START-UP PLAN

January 2017 - March 2017

- Startup project for the “Innovation and Entrepreneurship” exam at the University of Twente. Together with my team, we developed a complete business canvas and business plan for our project start up “Ghost Code”, company based on steganography techniques and augmented reality. The work lasted 3 months and it ended up with a pitch and poster session.

“RETI RESEVOIR COMPUTING PER L'APPRENDIMENTO DEL CONSUMO CALORICO SULLA BASE DELLA FREQUENZA CARDIACA” | JAVA • BASH • L^AT_EX

BACHELOR THESIS

July 2016

- The Neural Networks were the main topic of my thesis. I worked with the researchers of the Computer Science department at the University of Pisa, collecting and analysing data. I applied an Echo State Network to estimate the daily burned calories, using the heart rate tracked by a wristband as input parameter.

SAVE THE TREES | JAVA

VIDEOGAME

May 2015

- Videogame written in Java for the “Computer games” exam at the University of Stirling. The videogame placed 2nd in a game-design competition of the Scottish Minister for Natural Environment.

ACHIEVEMENTS/AWARDS

Dec 2025	Meta Business Technical Implementation Specialist	Earned the Meta Business Technical Implementation Specialist certification issued by Meta Blueprint, demonstrating expertise in implementing and supporting Meta's business technologies.
Nov 2022	Junior Professional Engineer	Officially recognized as a Junior Professional Engineer in the Information Technology field after successfully completing the national state examination.
Sept 2022	Best Paper FARES 2022	The scientific paper was selected as one of the best papers of the international workshop and the authors were invited to extend the work for journal publication.
Nov 2018	EIT Label Certificate	Awarded for completing the EIT Digital Master School Programme in Security and Privacy, accredited by the European Institute of Innovation and Technology (EIT).
Aug 2017	Big Data Analytics Certificate	Awarded by the EIT Digital Academy upon completion of a two-week summer school in Stockholm.
May 2015	2nd Place Code Competition	Second place in the "Gamification for Plant Health" game design competition, sponsored by fera.co.uk and scotland.forestry.gov.uk.
May 2014	TSSA Certificate	Trasporto Sanitario e Soccorso in Ambulanza certification awarded by the International Red Cross and Red Crescent Movement.

INTERESTS

I enjoy spending most of my free time outdoors. I am a former Boy Scout and particularly enjoy road cycling, running, hiking, and playing futsal and basketball. I often spend my holidays hiking or bikepacking, as I enjoy slow and immersive ways of exploring new places and nature.

I am especially drawn to the lifestyle of small- and medium-sized countries and cities, preferably in warm coastal regions. I also appreciate remote work, as it allows me to combine professional activities with exploration and travel.

When I am at home, I enjoy reading classical novels and historical fiction. I also work on computer science side projects, which may involve learning a new programming language or developing projects on my Raspberry Pi. Additionally, I am a novice bass player who enjoys both playing and listening to rock, progressive rock, and funk music.

I enjoy volunteering in social activities in my neighbourhood and being actively involved in the small events and celebrations of the local community. I proudly support the soccer and basketball teams of my hometown, Livorno.
